

GO LUMO

COMPANY PROFILE

01 ABOUT US

- ❖ Go Lumo is a full-stack EV charging infrastructure and software company focused on building India's most trusted, safe, and smart electric vehicle charging network.
- ❖ We manage end-to-end EV charging projects from site evaluation and hardware installation to smart load management, dashboard software, and ongoing support. We're starting with Andhra Pradesh and Telangana, with a vision to expand across India.

02 OUR VISION

- ❖ To enable India's EV future by making charging simple, accessible, and scalable whether at home, work, or on the road.
- ❖ We're here to fuel EV confidence, lower emissions, and create a connected, intelligent energy network that India can rely on.

03 WHAT WE DO

Go Lumo provides turnkey charging solutions tailored to each location's present and future

We serve:

Gated communities & residential apartments

Commercial offices & tech parks

Restaurants, malls, and public locations

Fleet operators

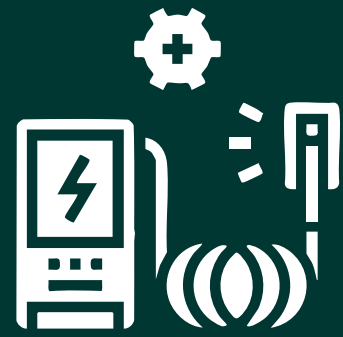

Farmhouses & independent homes

Highway-side fast charging hubs

04

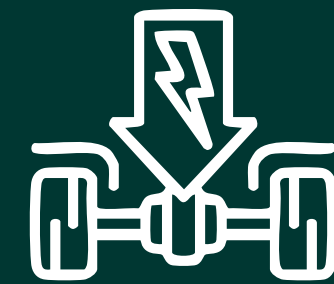

CORE SERVICES

Charger Installation
(AC & DC, slow/fast)

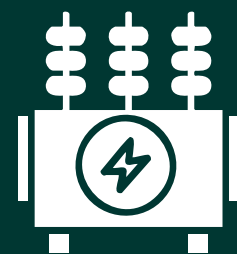

Site planning, future-proof
recommendations, deployment

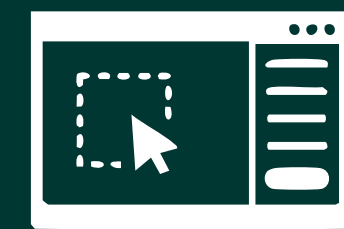

Hardware suited for both
current and next-gen EVs

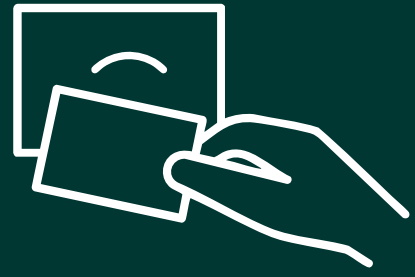

Smart Load
Management

Grid-safe load balancing based
on local transformer capacity

Custom Dashboard
& Software

RFID Access Cards

Real-time usage tracking,
admin control, billing transparency

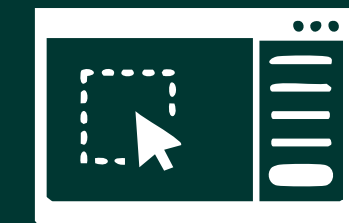

2 RFID cards per user
more at additional cost

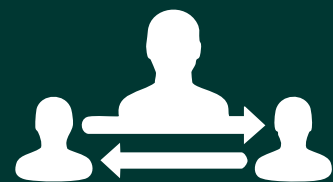

Partnerships with
Local Vendors

Deals for car care, decals,
services, and more

White-labeled Software

Licensed for third-party
usage with full
backend support

05 EXPANSION STRATEGY: FOCO & COCO

WE OPERATE USING BOTH MODELS:

- ❖ FOCO (Franchise Owned, Company Operated):
Franchisee invests, GoLumo operates
- ❖ COCO (Company Owned, Company Operated):
Fully owned and operated by GoLumo

This gives us the flexibility to scale rapidly while maintaining control and quality across installations.

WHY GO LUMO

India's EV infra is disorganized and inconsistent. Go Lumo is here to change that.

Safety-first installations
using certified hardware

Transparent energy monitoring
for all parties involved

Custom software and
control panels per location

Fast onboarding & support

Smart, future-ready
fast charging infrastructure

No shady billing,
trust is our brand

We don't just install
chargers, we build
confidence in the
EV ecosystem.

07

REVENUE CHANNELS

Go Lumo earns through:

⚡ Installation charges

⚡ Profit share on kWh consumed

⚡ Annual Maintenance Contracts (AMC)

⚡ Unlimited B2C charging plans

⚡ Affiliate revenues from partner tie-ups

⚡ White-label software licensing

⚡ FOCO franchise fees + energy commissions

⚡ SaaS subscriptions (dashboards for admins/users)

HIGHWAY & COMMERCIAL CHARGING

We are actively rolling out fast charging stations (AC/DC) on:

1. National Highways (NHs)
2. Restaurant & mall parking lots
3. Strategic rest points between cities
4. Our vision is not limited to current EV needs. We're building infrastructure for high-performance
5. EVs of the future, ensuring our network stays relevant for the next decade.

09 FIRST LAUNCH SITE

Go Lumo's first live deployment is being executed at:

Gokul Theatre, Erragadda (Hyderabad) a pilot location to validate operations, performance, and user onboarding.
